Dear Fellow Collector,

Some of the important items include the first U.S. Commemorative half-dollar, the Enigmatic "L" countermarked in the U.S. Mint and a unique Jefferson Indian Peace Medal. In addition to a wide selection of tokens and medals, badges, U.S. and World items, an interesting group of Masonic badges and Pennies, political material, World's Fair and other items is available within.

SUBSCRIBE: Catalogs are sent by subscription. The next sale catalog in late 1999 will be sent for only $15, with prices realized. It will include the balance of the Brunk collection and other important consignments.

TERMS OF SALE -- PLEASE READ CAREFULLY

1. **Your Satisfaction is our GOAL**! While mail bid sales are not approval sales, we will work with you to correct any mistakes on your part. Please write or call immediately should any difficulty or disagreement arise. We will cheerfully refund your purchase price, your full return postage and send a $10 credit on any future purchase for any misattributed lot. We try very hard to have all pieces correctly identified, and apologize for any errors.
   We DO appreciate your business!
2. **There is NO buyer's charge**! There is NO fee to enter bids. By submitting bids, you agree to the following terms of sale. With a few exceptions, there are **NO MINIMUM** bids. You do not need a catalog to bid. The entire Brunk collection of countermarks and other material is sold without reserve.
3. This is a mail bid sale of Historical Americana, tokens, medals and other collectibles. You cannot be present to bid, this is only by mail, phone, fax and internet. Your bids are accepted per lot, with the winning bidder receiving the item at a small increment over the second high bid.
4. **The Bidding Deadlines are**:
   Lots 101-999 7 pm on 29 June 1999
   Lots 1000-3608 7 pm on 30 June 1999
   Call in your bids at (815)226-0771; fax in your bids to (815)397-7662; or send your bids via e-mail (with one line per lot and bid) to me at bids@exonumia.com. Bids will be accepted past the closing time until a half hour passes without any calls. Please call EARLY! Bids must be RECEIVED by the closing date. The **opening bid** will only be available to previous bidders, beginning 25 June. The opening bid is the minimum increment over the second highest bid. The opening bid is ONLY available to bidders who have already bid on that lot, at least 60% of low estimate, or at least 50% of the opening bid for lots without estimates. To avoid numerous closing night call-backs, which we feel are unfair to underbidders, only the opening bids as of noon the closing days will be available, and subsequent bids will not be revealed. Due to "limit-bids", "group-bids" and "one-lot-only" bids, the opening bid may not be fully accurate prior to the auction close. Bidders are encouraged to submit their maximum bids and trust in our computerized bid reductions.
   Special Note: You may bid ANY amount, but once you have gotten the opening bid, no bids below that amount are accepted. We regret we are unable to cancel any bids after 25 June 1999.

SPECIAL INTERACTIVE Bidding

IF and ONLY IF you have submitted your bids prior to 27 June, we will e-mail or fax to you a list of your bids with the current information, opening bids, etc., on 28 June. The opening bid will only be revealed if you have bid at least 50% of it. Obviously you need to specify your e-mail address or fax number on the bid sheet.
ALL FAXES will be acknowledged: Please include a non-important cover sheet. Due to occasional problems, please include your phone and fax numbers in the body of all faxes, and resubmit if you do not get an acknowledgment within 24 hours (even if after the closing date). We are not responsible for incomplete or unreadable faxes.

5. All items are **UNCONDITIONALLY GUARANTEED** to be authentic and genuine. There is NO time limit on this guarantee. Should any item prove to be a copy, replica, fantasy or counterfeit, it may be returned at ANY time for a full refund. In addition, we will pay for any reasonable authentication service charge in the event any item is shown not to be original, plus your postage. Lots sold "AS IS" are not returnable, nor are any items described as a copy, replica, counterfeit, shell or fantasy. This guarantee does not extend to attributions, which may change.
6. GRADING is an art, not a science. We have attempted to conservatively grade each item. The amount of grade description is proportional to the value. Please do not expect every minor flaw to be described on a Fine-condition $10 token. Persons interested in subtle variations of grade should inspect the lots, or call/write for additional information or a FREE picture (see below). Tokens and Medals are NOT coins, graded on a Mint-State scale. A "Choice Unc." token may and probably will have minor spots, micro-hairlines, rub or wear on high spots and other minor problems visible with a glass. Exonumia is RARE in high grades. Sorry, no returns are generally allowed on the basis of minor grade opinion differences.
7. No Tie Bids; the earliest postmark gets the lot. Please bid in odd amounts: $10.28 vs. $10.00.
8. The **Minimum Bid** on every lot is $4.00. All bids are in U.S. Funds. Bids under $4.00 are ignored.
9. We reserve the right to withdraw lots and reject unrealistic bids (although we seldom do so!). In a very few cases we have duplicates of a lot. We reserve the right to sell a duplicate in the same grade as the lot description to the underbidder. Photographs are generally the item being sold.

10. **ALL BIDS REDUCED**: All lots will be sold to the highest bidder at a modest advance over the second high bid. Our computerized system automatically reduces your bid whenever possible, saving you money and allowing you to bid your maximum bid. Bid with confidence, as hundreds of bidders have done. By reducing your bids, we offer you the convenience of allowing you to bid your top limit, knowing we will reduce your bids as much as possible. Bids under $20.00 will not be reduced, nor will bids be reduced to under $20.00. All bids over $20 ARE reduced to 10% over the second high bid. Bids over $5,000 are reduced to 5% over the second high bid. No maximum bids are reduced over 40%, and bids are not reduced below 90% of the low estimate. **We REDUCE your Bids!**
11. The **GUIDE PRICE or Estimate** is to be used as a GUIDE ONLY. These estimates are based on my research and knowledge and are the estimated market prices only. Please feel free to bid higher or lower. Your bids WILL be reduced! Aside from the general minimum bid of $4 per lot, there is NO minimum bid per lot, and ALL bids at any level are welcomed. If you feel my estimates are too high, please bid at half, a quarter or less! You cannot insult me, and ALL bids are solicited. PLEASE bid what the item is worth to you, a fraction of estimate, or a multiple. Every sale has items selling for 10% of estimate, or less. All the lots in this sale are for sale to the highest bidder, regardless of the estimates. If you don't bid, you won't get anything! Except for the countermarked coins, lots without estimates are generally estimated to bring under $20.

SPECIAL SERVICES

12. **PERCENTAGE INCREASE:** Bidders may use the "Increase Boxes" on the bidding form to increase their bids by ANY percentage. This is a useful technique for advancing your mail bids as if you were bidding on the floor in competition with other bidders. It will only be used if necessary. This applies to bids over $20.00 only. If you do not have a bid form, please carefully specify the increase percentage for ALL or selected lots. You can have a different percentage for each lot, if you wish to do so.
13. **LIMIT BIDS:** Bidders may limit purchases by specifying the maximum amount they wish to spend. Please list your lots and bids in the order of preference. Your bids will be executed in that order until your purchase limit is reached. Please DO NOT bid up to only your dollar limit, as you most likely will NOT get every lot you bid on! Please feel free to bid up to TEN times your limit, or more.
14. **GROUP BIDS:** You may place one bid on any sequential number of lots, provided you also bid on each lot. Your individual bids are ignored when figuring the group bid, but the group bid must exceed the total bids of the individual lots by the minimum increment.
15. **ONE LOT ONLY Bids:** You may bid any amount on several lots, and specify only one lot. Please mark your bid sheet carefully. You can combine these options.

16. All lots are shipped upon receipt of full payment. We regret we are unable to make any exceptions, even to our best customers. This insures we are able to pay our consignors in full and on time. All invoices are payable within FIVE days after receipt. Past due accounts are subject to a service charge of 1.5% per month.
17. All lots will normally be sent by U.S. Mail, with all items over $20 sent via insured or registered mail. Postage, insurance and packaging will be added to all lots.
18. Auction sales ARE NOT approval sales! All returned lots must be made within five days of receipt. Your errors are your responsibility and ours are ours. The only legitimate reason for returning a lot is if it has not been correctly attributed. Any return must be insured for the full value and the reason for the return given. I do pay postage both ways for my mistakes (see #1). There is NO RETURN of bulk lots of 5 or more items, which are sold AS IS.
19. If you are not sure what a lot is, or need more information, please write, call or e-mail for a photo or further information. Within reasonable limits, I can now offer **FREE PHOTOGRAPHS** of any lot by mail or on the internet. Photos on the internet will be in color; printed photos are black and white. Frankly, I do not know what the demand will be for this service, and may need to limit requests. Please e-mail, write or call as soon as possible!
20. Time payments are available. Send an advance deposit of 20% of your total limit, and we will arrange reasonable payments for the balance due.
21. The **Prices Realized** are published, at $5.00. The top bid before reduction, the purchaser or other bidders are confidential and are not revealed.
22. Most photographs are at 90% of original, with those at page bottom at 45%. Sizes are usually in millimeters. All photos have been enhanced to better show details.
23. All bidders must supply full mailing address and home phone number (we are unable to accept bids from e-mail addresses alone!). Bidders with post office boxes are asked to supply confidential street addresses. References are desirable for new bidders. Previously unknown internet bidders may be asked for confirmation of bids by mail.
24. **SUBSCRIBE:** Catalogs are sent via subscription only, for $15 for the next important catalog with the prices realized. Subscriptions are not refundable.
25. Your comments on bidding rules, auction format and lot descriptions are most welcomed. We have changed all areas over the years based on our customers suggestions, in order to serve you better.

The Gregory Brunk Collection of Countermarked Coins

Gregory G. Brunk

Dr. Gregory Brunk is a well known author who has also contributed to many references on coins, medals and tokens. For over 25 years he has been gathering information on countermarks, and currently is working on a comprehensive catalog of medieval and modern governmental countermarked coins. Since his first paper in "The Numismatist" over 20 years ago, he has written over two dozen articles and numerous books including "World Countermarks on Medieval and Modern Coins", "American and Canadian Countermarked Coins", "Merchant Countermarks on World Coins", and "Identifying Coins, Medals and Tokens".

Brunk is a 25 year member of the American Numismatic Society, a life member of the American Numismatic Association and the Token and Medal Society, and a fellow of the Royal Numismatic Society and the Canadian Research Society. He has received half a dozen awards for his research, including the ANA's Wayte Raymond Memorial Award, and its Heath Literary Award Medal, the CNA Guy Potter Literary Award, and a number of awards from TAMS. He has graduate degrees in history, economics and political science, has published over forty social science articles, and a number of books on diverse subjects.

The Collection

Dr. Gregory Brunk has been collecting tokens and medals since he was in junior high school. When in college he would make the rounds of coin shows on the weekends and try to buy everything the dealers could not identify.

Among the major jewels of his collection are his merchant countermarks. In this and the next auction you will find many countermarked coins that may never appear for sale again in your lifetime. Brunk was able to obtain many rare pieces, because when he began collecting them there were few numismatists with any knowledge of such pieces. There was no general catalog of American merchant countermarks until he published "American and Canadian Countermarked Coins", by World Exonumia Press in 1987.

This important collection is unique in that virtually all the specimens are clearly purposive issues. Although Brunk obtained some of his pieces from such well known collectors such as Maurice Gould and Roy VanOrmer, he always tried to buy pieces made from prepared stamps. And he only purchased initial-stamps if there were more than one example known, which confirmed a mercantile purpose.

One of the most attractive things about such important pieces is the special sort of history attached to each countermarked coin. While we cannot know anything about the exact history of most coins, with countermarks we know precisely where a coin was and who held it at an important point in its history. Another intriguing aspect of such countermarked coins is that they comprise one of the few remaining frontiers of numismatics that is not yet totally explored. For examples, check the Boston Fire piece, newly attributed as the first US commemorative coin, and the "L" stamp, also a US Mint produced product. Both should be listed as US coins in the Red Book.

While all of the merchants who stamped coins have not yet been identified, it seems only a matter of time before most of them will be. Countermarked coins often were impressed with a gunsmith or silversmith stamp or hallmark, which can be identified with persistence. Countermarking was far from the most common method of advertising. If a merchant marked coins, it is likely he advertised in newspapers or business directories as well. Thus, many pieces can be identified with some research. All the Brunk and Rulau PLATE specimens are so marked.

Estimates and Bidding

Many of these pieces were acquired by private treaty, and have never appeared at auction. This lack of history, the many new attributions and information on specimens, and the current fluid market combine to make it difficult, if not impossible to suggest accurate price estimates. Thus, no formal estimates are given for the countermarks. Where possible, auction records and/or prices in other references are mentioned as a comment. Many of the these important pieces will bring record prices, but compared to their increasingly-recognized rarity, the prices are minimal compared to equally rare coins. Please read the bidding rules, bid your maximum prices, take advantage of the "increase bid" option, put a limit on your total purchases and bid on several multiples of your limit, in the order most desired. Please DO NOT bid only up to your limit and then stop; it is highly unlikely you will be successful on all your bids.

The information in descriptions is from "American and Canadian Countermarked Coins", by Brunk, now out of print. The number of specimens known was updated by Brunk, as of 11/98. The references to Rulau are "Standard Catalog of United States Tokens, 1700-1900", available from the auctioneer for $54 postpaid. All photos are of the piece to be sold.

Medical - Phrenologist!

322. **(OH: Fostoria) "P.E. Ballou Phrenologist".** Perry Eugene Ballou, 1850-1913, married Olive Jackson in 1879 and had three children. He was a lecturer on the system of phrenology, which argued that human behavior could be explained by examining the shape of a person's head, and the 'bumps' on it. Phrenology was introduced into America by a Viennese physician Johann Spurzheim in 1832, calling it 'the science of the mind'. Initially appealing to the elites, by the 1850's phrenology had spread to small-town America, aided by the traveling 'bump doctor', close kin to the medicine show doctor. These professors of phrenology lectured, sold books and charts, and analyzed the heads of their audience for a fee, applying it to every aspect of life, from choosing mates and careers to raising children. Perry probably pursued this field from about 1868 until 1876, preferring it to the hard labors of his family farm in Michigan. Seeing the interest in the subject diminish in the 1870's, he entered and obtained a medical degree from Hahnemann Medical College of Chicago in 1881. After graduation he first settled in Fostoria, OH, and there practiced homeopathic medicine. A couple of years later he moved to West Mill Grove, OH, and seems to have retired from practice in 1900 and died in 1913. Bold Very Fine countermark in circle around rim of coin, on Good Indian cent, date covered by c/m. Scarce and popular medical c/m.

Unique MAGIC C/M on US COLONIAL Coin

336. **"Sig. Blitz/MAGICIAN" on 1787 Connecticut Copper.** Bold and clear block letter Very Fine+ countermark on AG/pitted CT copper coin, reverse somewhat clear and readable. Rare and highly desirable magic c/m, this is the only known example on a CT cent. All c/m on colonial coins are RARE!
Rulau Plate 1997, where he values at $500: p.305. As there are no recent sale records for such a spectacular piece, it should bring more today; Brunk Plate; Melvin Fuld: "Seldom Seen Tokens", TAMS 1976:52 plate. Color Cover Photo.

Rare 20 cent Denomination

337. **(ME: Livermore) "D.S. Boothby" on 20c** Bold VF c/m on nice Good+ 1875-S TWENTY-CENT. RARE denomination for c/m! One of 2 known, other on two-cent (which also reads "Warranted"). Rulau suggests this is David Boothby, a gunsmith in Livermore, ME, 1870-1884. Very Rare!
Brunk Plate. No specimen seen by Rulau (1997:510), no number assigned.

Rare Phila Hard Times Era C/M Two Reales

338. **(PA: Philadelphia) Bolivar House.** William Carels began managing the Bolivar House in 1828. He also countermarked coins for Carel's Restaurant, which was located at the same address. "Bolivar/8th and Chest Strt" in two semi-circles. These Bolivar House c/m are particularly interesting because of their unusual letter layout, which is NOT circular, but composed of semi-circles of different radii. Why he used this unusual layout is answered by closely studying his twenty and twenty-five cent struck tokens. On those pieces the denomination is in the center of the name and address, which appear exactly as they do on the coins, but in the c/m coins these words are incuse. Therefore, the c/m coins must have been made using the original hub die that had been cut to manufacture the Bolivar House's brass tokens! This fact was previously unrecognized. See Rulau 1997, p.137-8, where the tokens are valued at $2000-3000/VF. Bold VF-XF c/m on nice, clean Good Mexican two reales, 1789. One of three known on two reales. VERY Rare! Hard Times era c/m.

RARE FIRST U.S. Commemorative Half-Dollar!

Boston Fire - "Made From" Masonic Silver!

339. **(MA) Boston: Masonic Temple Fire - US MINT ISSUE - FIRST COMMEMORATIVE COIN.** From a 29 Sept. 1864 newspaper: '... The US Mint released the new 1864's to the Masons, made from their own silver'. Another half dollar is engraved: 'Made from Jewels burned in the Masonic Temple Boston' (Moffatt mail bid sale Sept. 1997, lot 128). This example: "Presented to/Sir KT R H Carelton -- by -- Sir KT D.W.W./Boston" on obv; rev: "Taken from the ruins of Masonic Temple/April 6 1864", nice VF fully hand engraved (not c/m); on choice Fine 1864 Seated Half-dollar. A rare, previously unknown US MINT ISSUE, from melted silver coined into half-dollars, and engraved for fund-raising. 'KT' is Knights Templar. See the Mark Hotz article in the Feb. 1993 Numismatist. This should probably be listed in the Red Book! RARE and highly desirable. This may be classified as the first US commemorative half-dollar, issued 28 years before the Columbian Expo half dollars. UNIQUE variety.
Brunk Plate, p. 116. Ex-Lot 1564, Emery and Nichols collection, Bowers and Merena, Nov. 1984. Rulau lists only 6 specimens, all different varieties. An example in the March 1985 B&M sale realized $187, before it was known this is a US Mint issue. Worth four figures.

340. **Boston Masonic Temple Paperweight.** Brunk PLATE, p. 115. Rectangular glass paperweight, with photo of Temple, which burned in 1864, embossed in base. While the Temple burned in 1864, this was probably issued later, as this style of paperweight appears more recent than 1864. XF, one flaw center. Brunk plate.
. . . . . $125.00–150.00+

341. **"Boston".** Many "Boston" c/m were struck from the same stamp, which means BOSTON is the name of a person or firm. Bold XF c/m, second "O" partially weak (See Brunk plates); on nice brown Good 1831 Large Cent. Brunk suggests a probable issuer was the Boston Type and Stereotype Foundry.

342. **"Boyd".** Large bold letters, VF c/m on AG 1876-CC quarter. An important (western?) c/m, the firm apparently in business before and after the Civil War, as its c/m are also found on 1814 and 1843 halves.

343. **"J.A. Boyer".** Bold XF c/m on nice Red VG 1854 Large Cent. One of 3 known on Large cents (9 total pcs).

Rulau values at $50/VF.

346. **"J. Bramble/*".** As above. Very bold XF c/m; on Very Good to Fine 1851 Half cent.
Color Cover Photo. These were probably struck ca. 1854, as that is the latest date coin known.

346

Early Burlesque New York C/M

347. **(NY: New York City) Broadway Varieties.** "Admit To/Broadway/ Varieties". Probably a burlesque theater, like Parisian Varieties (see lot 516), but an older issuer, as all c/m are on two reales, the latest date 1817. Mostly strong VF-XF c/m, a few letters light; on clean, nice AG+ 1773 Mexican two reales (mintmark is upside down!).
Brunk Plate (left). Color Cover Photo. Rulau values at $175/XF.

349. **(MD: Baltimore) "H.S. Burges".** Attributed to a silverplater in Baltimore by Rulau. Nice VF c/m. One of the most prolific US stampers of coins, so many that the top of 'B' broke and is missing on this specimen. Probably struck in 1858 as that is latest coin date known. On brown VG 1851 Large Cent.

A similar c/m on a 1845 cent brought $68 in the Nov. 1989 Coin Galleries auction.

350. **(MD: Baltimore) "H.S. Burges".** Very sharp XF c/m, mint red in letters. 'B' top broken; on nice brown F/VF 1852 Large Cent. A popular c/m.

Brunk Plate. TAMS Aug. 1990 plate.

352. **(MD: Baltimore) "H.S. Burges".** Bold VF c/m, top of 'B' complete! On worn AG 185? quarter.

Rare NY Bust-Half Hard Times Token!

353. **(NY: Ithaca) "J. Burritt & Son" Rarity-9 Hard Times R-532.** Joseph Burritt was a silversmith who moved to Ithaca from Connecticut in 1816. He and his son sold 'Imported and American watches, clocks, silverware, spectacles, musical instruments, spy glasses, microscopes.' He was also an early PHOTOGRAPHER who chronicled the life of Ithaca (The Dewitt Historical Society of Ithaca published an entire book: 'With a Jeweler's Eye: The Photographs of Joseph C. Burritt, 1988'. This book illustrated one of his spoons with this hallmark, but they were unaware he had stamped coins!) Bold VF BAR-STAMP c/m, last few letters weak; on nice Good 1834 Bust Half-Dollar. Only known specimen for this variety. Two others known with 'Ithaca'. Very Rare HARD TIMES TOKEN c/m, Rulau 1997, p. 115, 532, R9.

Brunk Plate (photo much too light!) Since there are only two others known, there are no auction records. As an important early NY c/m and HTT, Brunk suggests $1000-2500+.

354. **(NY: Ithaca): "J. Burritt & Son/Ithaca" SPOON.** Similar to hallmark on above half-dollar. This rare hallmark is on a silver spoon, in two lines, with slightly overlapping "Ithaca" hallmark. Engraved with owner's initials: "LJH". Silver spoon, about XF. . . . . $50.00-$100.00+

355. **(CA?): "C S/Hotel".** NICE cartouche BAR-PUNCH in rectangular bar, scalloped top edges! Most unusual! This was likely issued in Calif., as the only other known East Indies Co. c/m coin was stamped by Polhemus in Sacramento. Bold F/VF c/m; on British East Indies Co. Bombay Presidency 1/4 anna 1833, VG. RARE! One of only two known specimens, the other on 1835 half-cent. This can probably be identified from western business directories.

Brunk plates American: p. 318; World p.38. Color Cover Photo. Brunk estimates $750+.

356. **(NY: New York City) "C.V/N-Y".** Single stamp, only known specimen on Large cent, one of 2 known pieces, the other on 1806 two reales. This may be a Hard Times Token! Bold VF c/m on AG 1837 Large Cent, holed, edges flattened.

357. **(PA: Philadelphia) "Caldwell & Son".** James E. Caldwell began as a silversmith in Philadelphia in the early 1830's. He was a partner in Bennett and Caldwell from 1843 to 1848, when J.E. Caldwell and Co. was organized. They also sold pocket watches at their 902 Chestnut St. store. They issued a number of medals (see Forrer VII:146). The firm is reportedly still in business. Only known specimen of this variety; also known with 'Philada', on large cent. Mostly bold Fine to Very Fine c/m, on Fine 1860 C-N Indian Cent. Rare.

Thomas White followed, who operated the business until 1873, when it became the White Tea Company. "China Tea Co./Bangor Me." Most merchant c/m are all capital letters. This is an unusual upper & lower case c/m. Very bold and choice XF c/m, on nice F/VF 1853 arrows & rays quarter. This appears to be the finest known example.

Brunk Plate, upper right (and p.5); Rulau plate, lower left; featured on the front cover of The Numismatist Feb 1989, 224, Brunk article, plate. A much inferior specimen realized $440 in the Sept 1992 B&M auction.

367. **(PA: Philadelphia) "G.W. Clark".** A close comparison of the letters of this specimen indicates it is similar (except for being a straight line) to the marks of George Clark (PA-713, Rulau 279), a blacksmith at 1118 Wistar St. Apparently the same person was listed in the 1860 city directory as 'G.W. Clark', a manufacturer of whitelead, etc. at 217 Lodge St. One of only 2 known specimens of this variety. Bold XF c/m, on 186? C-N Indian Cent, AG, flattened, elongated slightly.

374. **See Deuteronomy.** Hard Times R-367B, R 1997, p. 150, R-7. An enigmatic Biblical verse, which may be a veiled attack on an antebellum politician (see Rulau). "See Deutero-/Nomy 23: 1,21" Very bold XF c/m, but last '1' weak; on Guatemala Charles IV two reales, 17??, large planchet lamination rev.

378. **(PA:Philadelphia?) "I. Dixon*".** LARGE, VERY Bold XF c/m BAR-PUNCH, in serrated rectangle; on slick rev of copper George II Penny, obv AG, all choice Brown, nice. Rare to find a George II coin countermarked! Quite possibly a maker's mark of Isaac Dixon, a Philadelphia silversmith born in 1784, but this is larger than most hallmarks. The company was in business as I. Dixon and Son until 1893. Very Rare, only known example (unique?)
Color Cover Photo.

379. **"L. Dudley/Cast Steel".** Very bold XF c/m on rev of 183? Large Cent, nice AG. Only known specimen. A number of marks have the general form of "(name)/Cast Steel" (see lot 422 for another mark of this style). This indicates the issuer was likely a tool maker after ca.1830, when steel was substituted for iron in axes and other tools. This may be a predecessor of Dudley Lock Co. of Chicago, which is listed in Arnall (1996) as a maker of padlocks, but he does not give Dudley's first name.
Color Cover Photo. Unknown to Rulau, but similar c/m listed at $125.

RARE Ezekiel Burr Hard Times Token

383. **(RI: Providence) "EB" Hallmark of Ezekiel Burr - RARE Hard Times Token.** The origins of this hallmark stamp have been hotly debated for decades. Early writers attributed this piece to Ephraim Brasher of New York. A similar c/m piece sold for $3500 in 1968! Three spoons with this hallmark, but attributed to Brasher, sold for $880 in the July 1991 Coin Galleries sale. Coin World (Feb. 16, 1998) printed a feature article on this hallmark on a 1799 dollar. Belden and many other references illustrate a very similar rectangular silversmith's hallmark that was used by Ephraim Brasher. The problem is that Brasher died in 1810, and "EB" hallmarks appear on coins dated as late as 1835. However, silversmiths sometimes used hallmarks of predecessors to mark their own quality goods. A subsequent article in Coin World (March 3, 1998) illustrated this coin, a blowup of the c/m, and offered arguments favoring Ezekiel Burr as the illusive "EB". The rectangular c/m of Brasher is 'E*B', while this is "EB".
Burr was an early American silversmith, born in Providence in 1765. He and his two brothers Christopher and William C. were apprenticed to gold and silversmith Samuel Yates of Newport, ca. 1777. When Ezekiel's apprenticeship was over, he married Lydia Yates, in 1785. The Dec. 8, 1792 'Providence Gazette' reported he and his brother William were partners 'a few doors south of the Baptist Meeting House'. Christopher was lost at sea while quite young. In 1793 the two brothers parted their business, but each continued in the trade. During his life Ezekiel held various local offices, including tax collector and deputy sheriff. About 1825 Ezekiel became a grocer, while his young son continued the family jewelry business and would have continued to use his father's hallmarks.
BAR-PUNCH in rectangle, F/VF; on head of 1819 Bust Half Dollar, choice VF. One of 2 known specimens on half dollars; one of 7 total, the latest dated 1835, making it a Hard Times Token. The 1799 dollar piece is also carefully struck on the Liberty head. RARE, an important piece of evidence in an ongoing debate in early American numismatics. Rulau 7/98 lists as RI 41A, ca. 1835.
From the Bowers & Merena Nov 1992 sale, #2007. Coin World cover page plates, March 3, 1998.

Brunk Plate (left).

393. **(PA: Sharpsville) Maggie E. Fish.** The only known example of this important private c/m piece was made by J.W. Fuller, who also issued similar type advertising marks (See Lot 403). Recent research has shown Fuller was a jeweler in Sharpsville, PA. Therefore what "Ind." means on this piece is not clear. However there was a Sharpsville, Ind. in Tipton Co. and this town may have been originally settled by folks from Sharpsville, PA. "Maggie E. Fish/Sharpsville./Ind./*/March 4 th. 1870" Individual letter punch, unusual with upper and lower case. Bold VF c/m on 1858-O half dollar. Unique.
Ex-VanOrmer, #2644. Brunk Plate, p. 246. Rulau plate. The only known example of such a personal piece made for advertising.

Penn. Sharpsville Fuller Jeweler

403. **(PA: Sharpsville) J.W. Fuller.** Fuller was a jeweler in Sharpsville, PA. Although previously attributed to Indiana, this Penn. attribution has been confirmed by the PA Sharpsville town historian in a letter to Brunk, and the recent discovery of a Fuller c/m also reading 'Sharpsville PA' (Also see lot 393). Fuller's only daughter died in the 1940's. "J.W. Fuller/Jeweler/Sharpsville" Bold VF-XF individual letter punch c/m; on nice F/VF 1869 shield nickel. Most unusual, one of the few advertising c/m from individual letter punches, plus in upper and lower case.
Brunk Plate (right). One of the few advertising c/m made entirely from individual letter punches. Rulau values at $125/VF.

Early Ohio Photographer!

405. **(OH: Urbana) "G.W.C." G.W. Collins PHOTOGRAPHER.** According to the 1858 business directory, G.W. Collins's photographic studio was located at 154 Scioto St. This "G.W.C" c/m is in exactly the same letter style as his longer c/m: 'G.W. Collins/Urbana, O.' Struck twice, bold VF c/m; on 1851 Half cent, choice brown VF.
Brunk Plate; see Rulau 1997: 274 & 615. Rulau values at $40/VF, $60/XF.

Rulau 1997:274 values at $60/XF.

Utah or Ohio: Galt House

407. **(UT: St. Joseph or OH: Cincinnati) "Galt/House".** Now attributed to Cincinnati by Rulau, as the Galt House Hotel and Restaurant was located at 6th and Main. It also issued other known tokens. Listed by Brunk (1987) and previously by Rulau to the Galt House in St. Joseph, Utah, which issued paper script. Bold VF/XF c/m in two curved lines; on red/brown AG/Good 1851 Large Cent. Only known specimen. Unique!
Brunk Plate, p. 249. Rulau Plate. TAMS Aug 1990 plate. As this is unique, there is no auction record.

408. **"Gibson".** On obv, "Clow" on rev, both VF c/m, individual letter punch; on Good 1858 Seated Half. Only known specimen.

Two Related Gilman Marks

409. **(ME?) "E.B. Gilman".** The E.B. and G.E. Gilman c/m (see next lot) are identical in both style and shape. They are undoubtedly related, but both are unlisted in Rulau. Partially weak to VF c/m, 'an' almost missing. On 1857-O Seated quarter, Good+.

410. **(ME?) "G.E. Gilman".** Bold VF c/m; on choice brown VG/F 1853 Large Cent. One of only 3 known on large cents; 4 total. A clue to the origins of G.E. Gilman may come from another of his marked pieces, which is also stamped by E.M. Newton, a gunsmith in Skowhegan, ME, in the 1850s and 1860s.
Brunk Plate (wrongly shown under "EB Gilman").

Vermont Gunsmith on Canadian Token

411. **(VT: Clarendon) "E.M. Glynn./Gunsmith."** Glynn was a maker of percussion half stock guns in Clarendon. Two lines, Bold XF c/m; on Canadian Banque du Peuple Sou Token, brown G/VF, center hole, rim dings. One of only 5 known total.
Brunk Plate. Ex-Koppenhaver, June 1979, lot 246. Likely the finest known piece, and an unusual host token.

412. **"F.P. Goff".** Tops of c/m letters quite weak, rest F/VF; on VG 1862 C-N Indian Cent. One of only 2 known, the other on a 1865 cent. Brunk Plate.

Goodwin's Grand Grease Juice!

411 414 415 416

417 418 419

413. **(New Hampshire) "Use G.G.G." Goodwin's Grand Grease Juice.** Numismatists argued for decades about what was advertised by the stamp: 'Use G.G.G.' In 1985 Robert Sagers discovered the long c/m version: 'Use Goddwin's Grand Grease Juice for the Hair'. In 1994 Dave Bowers presented extensive evidence at an ANS conference that the issuer was George C. Goodwin, a large patent medicine dealer in Boston. But a subsequent check of the Goodwin's patent medicine catalogs in the Harvard Library showed he did not sell G.G.G. In 1995 Richard Cannon discovered a bottle reading: 'Goodwin's Grand Grease Juice Quintessence of Fat'. Then it was discovered that the July 1855 NH District Court copyrights indicate M.H. Goodwin was the maker of this product, but do not indicate a city! He received licenses for the trademarks: G.G.G., Q of F, Goodwin's Grand Grease Juice, and Goodwin's Grand Grease Juice or Quintessence of Fat. He called the product 'The Great American Preparation for the Establishment, Growth and Beauty of the Human Hair'. "Use/G.G.G." Bold VF c/m/m; on nice brown G/VF 1848 Large Cent. Issued ca. 1857, as that is the latest known host coin.
In the first edition of his standard catalog, Rulau listed this as a maverick ($25-175), now moved to NH (1997:223-224).

414. **(NH) "Use/G.G.G."** As above. Bold VF c/m; on nice brown VG 1851 Large Cent. Brunk Plate (upper left).

415. **(NH) "Use/G.G.G."** As above. Mostly bold VF-XF, but first "G" very weak; on 1853 arrows Seated half-dime, VG.

416. **(NH) "Use/G.G.G."** As above. Bold XF c/m; on VG 1850 Seated Dime.
Rulau values at $50/VF, this XF specimen: $75-100+. An example on a VG 1831 dime brought $100, Nov 1993 Bowers & Merena auction.

417. **(NH) "Use/G.G.G."** As above. Bold VF/XF c/m; on worn AG 1855 arrows Seated Dime. Color Cover Photo.

418. **(NH) "Use/G.G.G./&/G.G.G.G."** As above, 4 line inscription. Bold VF/XF c/m; on nice brown VG 1828 Large Cent.
The meaning of G.G.G.G. is still unknown! Ex-Maurice Gould collection, Sol Taylor auction, Feb. 1977, lot 5.70.

419. **(NH) "Use/G.G.G./&/G.G.G.G".** As above. Nice Bold XF c/m; on nice brown Fine 1847 Large Cent.
A similar c/m on a VF 1851 cent realized $220 in Nov. 1990 B&M sale. One on a VF 1848 cent brought $143 in the Nov 1993 B&M sale.

420. **"A.B. Grant".** Pre-Civil War issue. Slant letter XF c/m; on nice VG/F 1858 Seated quarter. One of only 2 on quarters; 5 total. Probably identifiable from directory listings.
As Dave Bowers points out, slant letter and italic c/m are most unusual. Unlisted in Rulau, but comparable pieces $50-150+. Ex-Kirtley, Oct 11, 1988, lot 6.

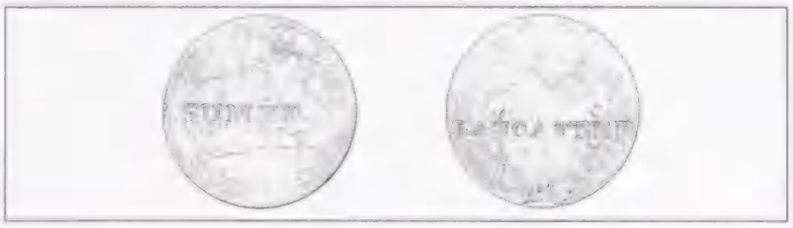
421. **"A.B. Grant".** Slant letter VF c/m; on nice VG 1856 Seated Half dollar. Only known specimen on half.
Ex-Kirtley, Oct. 1986, lot 6.

422. **"Graves & Hatch/Cast-Steel".** Bold two-line VF/XF c/m; on nice brown VG 1851 Large Cent. Only known specimen with this exact c/m. 2 other varieties known, one specimen each (3 total). Obviously some sort of a tool-maker, but not yet identified. See lot 379 for a similar type piece. Rare, only known example of this stamp, and a nice c/m!

See Rulau, 1997: 107 for another variety, which he values at $250/VF.

423. **"Griffin".** Struck 4 times in box-shape, with center device, and unknown c/m on rev, bold VF; on unidentified 27mm coin, slick AG.

UNIQUE Early Lancaster PA Gunsmith



424. **(PA) Lancaster: "... Gumpf" & "Lancaster".** The Gumpf family of gunsmiths lived in Lancaster, PA, ca. 1820's (attribution by Rulau). At least eight members of the family made guns in the early eighteenth century (Kauffman, 1952: 39-40). This specimen has an initial preceding 'Gumpf' that might be a 'E'. "E (??). Gumpf" on obv, mostly bold VF; "Lancaster", partially double struck on rev, VF. All on AG 1818 Bust quarter. The marks were intended to mark Gumpf's guns. Only known specimen. UNIQUE EARLY C/m! Rare and desirable.

Brunk obv Plate, p. 253; "Lancaster" rev plate, p. 108. While Rulau provided the attribution, it didn't make it into his recent edition. As a unique, early PA token, it is probably worth $1000-2000+.

425. **"?. Gwinner."** Previously listed under G. Winner. Bold VF/XF c/m in arc; on good 1856 Seated Quarter. Only known specimen.

Rare Mass. Hard Times Token?

426. **(MA) "H W C" Rare Hard Times.** Rulau Hard Times Token 184. Attributed by some to MA, as one known silver specimen reads: 'HWC/Mass'. Also known with '1/Pt' and '2/Pt', so the stamp was possibly used to make picker tokens later. VF c/m; on brown AG 1829 Large Cent. Only known example of this variety. Rulau (1997:111) lists the piece as a HTT, but doesn't think the pieces with 'pt' are related to it. But it appears the stamps are the same, except the earlier one has periods following the individual letters. Rare.

Brunk Plate. Rulau 7/98: "not HTT!".

427. **IN Hammond: Mrs. T. Hammond.** See Brunk PLATE, p. 254. "Mrs. T. Hammond./Hammond, Ind./To/J.F. Moulton." Very Fine letter punches; on slick AG Seated quarter (wrongly listed as on half dollar). Mrs. T. Hammond was the wife of Thomas Hammond, the gentleman for whom the town of Hammond, IN was named. This naming occurred in the mid-1870's at the request of the Post Office. The question of which name was narrowed down to two choices. Marcus M. Towle, the founder of the town, hoped the town would be named for him. Thomas Hammond, a brother of George Hammond, a partner of Towle, was a man of stature in the area, and put in his claim for "Hammond". The issue was decided when the two met and flipped a coin. Towle served as the first mayor (1884-88) and Hammond as the second mayor (1888-93).

428. **"I. Harris".** Double struck, "ris" very weak, otherwise F/VF; on Washington colonial Cent copper (Baker 6), brown AG/G. Only known specimen. RARE denomination for c/m!

Lacrosse Wis. Hatch's Restaurant

429. **WI Lacrosse: Hatch's Restaurant.** E.A. Hatch operated the Aldine Restaurant. He struck very elaborate c/ms, as if made from a stamp intended to make struck tokens. "Hatch's/-.-/Restaurant/Cor Main, & 3rd Sts./-.-/Lax, Wis." Very Fine c/m; on Good 1867 shield nickel.

Brunk Plate (center); Journal of American Culture, 1991 "Coins Stamped with Advertising: A Forgotten Chapter of Nineteenth Century Midwestern History" plate. Rulau values at $60/F, $90/VF. A VG 1867 nickel specimen brought $121 in the Nov 1993 B&M sale.

430. **"E.C. Hatch."** A prolific late issuer of c/m coins, about whom nothing is yet known. VF c/m; on worn-date AG two-cent.

431. **"H. Heaselden".** Bold VF/XF c/m on BOTH SIDES; on beat-up AG 1818 Large Cent. One of 4 known, the latest known dated 1841.

Brunk Plate, p. 86, top of right column.

B.C. Hoff, Syracuse NY

432. **(NY: Syracuse) "B.C. Hoff".** Rulau now attributes these pieces to Syracuse, NY, ca. 1880. While usually struck twice, this specimen is only struck once. VF c/m; on nice brown VG 1846 Large Cent. One of only 4 known on Large Cents.

433. **(NY: Syracuse) "B.C. Hoff".** Struck twice, one VF, the other incomplete; on nice Fine 1854 Seated quarter.

434. **(NY: Syracuse) "B.C. Hoff".** Struck twice, both VG c/m; on nice VG 1857 Seated quarter.

435. **(NY: Syracuse) "B.C. Hoff".** Struck twice, both F/VF c/m; on nice VG 1858 Seated quarter.

436. **(NY: Syracuse) "B.C. Hoff".** Struck twice, XF c/m; on Walsh's General Store Hard Times Token (Low 99), G/VG, but lots of scratches (see photo). Only known specimen on HTT.

Brunk Plate.

Mass. Arms Co. Gunsmith

437. **(MA: Chicopee Falls) Enos Hoover.** Rulau suggests Hoover was a gunsmith in Chicopee Falls, since the eagle resembles the stamp the Mass. Arms Co. used to mark its guns. "Enos Hoover/1851/(eagle)" Individual letter punch, VF-XF c/m; on Good 1851 Large Cent. Only known specimen for this variety; only one of another variety is known, which is dated 1850, but does not have the eagle. Rare.

Brunk Plate; Rulau Plate. Probably worth $200-300+, but no recent auction records exist.

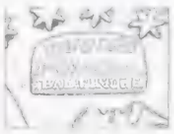
Baltimore Houck's Panacea Hard Times Token



438. **(MD: Baltimore) Houck's Panacea.** Hard Times 141. Jacob Houck was born in Frederick, MD, and moved to Baltimore in 1828, where he had a dry goods store at 121 W Baltimore St. In 1834 he started selling his panacea, and advertised in the 1835 to 1842 city directories that it was prepared solely from vegetable matter. A bottle cost $1.50, and Houck stated a liberal discount would be given to those buying for resale. Eventually his shop was located at No. 16, the corner of German and Hanover Sts. In 1851 Henry T. Houck became proprietor of the business. He must have sold the rights to produce the medicine, as a bottle exists with a Goddletsville, TN address, with another made in Nashville. The 1855 Nashville city directory carried an ad by A.G. Goodlet (presumably Goodletsville was named for his family) who stated he now sold Houck's Panacea, popular in both the South and North. "Houck's/Panacea/Baltimore" BAR-PUNCH, in loaf shaped indentation. Bold, clear VF c/m fully in field; on choice Fine 1834 Bust Half Dollar. One of the most sought after US c/m, a classic collected for over a century! Also listed as Hard Times Token R-141.

A lower grade 1832 example sold for $665 in the Stacks Sept. 1996 sale. An 1835 half in a recent Bowers & Merena sale brought $1452, substantially above the values in Brunk & Rulau.

439. **Houck's Panacea BOTTLE.** RARE wonderful large round bottle, with large letters embossed vertically "Houck's/Patent/Panacea/Baltimore" Light green tint, 6.5" tall, 3+" wide, iridescent, uneven, large pontil off at base (as made), minor crack at mouth. With label from the Greer collection, sold by Harmer-Rooke, NY. See Rulau PLATE, 1997; 104. Nice condition! Excellent display item! Rare!

$450.00–500.00+

Brunk reports RARE, one of only 3 seen in 20 years. Rulau plate of this specimen, p.104; Journal of American Culture, 1991, "Coins Stamped with Advertising: A Forgotten Chapter of 19th Century Midwestern History" plate.

440. **"H.W. Houghton".** Struck twice, at angles, on obv (G,VF); once on rev (XF). On Good 1858 Flying Eagle cent. Only known specimen on FE cent, one of 3 total. Unusual in not being all capital letters.

441. **"G.M. Houston".** Nice style c/m from one stamp of finely made letters. VF c/m; on AG/G 1845 Seated dime, apparently holed and plugged below c/m. One of 3 known.

Unique Howe's Improved Scales C/M

442. **(VT: Brandon) "Howe's/Improved".** Howe's manufactured its 'Improved Scales' in Brandon, and advertised they were the best in use. Two separate lines, VF c/m, on nice brown VG 1848 Large Cent. Only known specimen. Very Rare, Unique!

Brunk Plate, p. 259; Rulau Plate. Also see Howe's Centennial shellcard. Lot 156. Probably worth $500-800+, but no auction records exist.

443. **(MA: Cambridgeport) "E. Howe, Jr. Pat./No/Sept 10, 1846".** Elias Howe Jr. apparently manufactured window blinds, as in 1849 he and Chency Reed obtained a patent for an apparatus that opened outside blinds from inside a building. However, this c/m covers a different patent, and should be relatively easy to research! Struck twice on obv, first line curved, "No" short for "Number", with room for number to be punched in. Research this piece for the Update, and see your name in print. Mostly bold F-XF, strikes do not overlap, and apparently is a single die-punch. On VG brown 1851 Large Cent, rim flattened by punches. Only known specimen this variety; one known of other variety. Rare! Rulau 1997; 212.

Rulau Plate. Rulau lists as $200, but that is likely too low, as there is no auction record on this unique piece.

444. **"Jennie/Hubbs".** One of the few countermarks issued by a woman. As Bowers points out, one of the few c/m with a first name. 5 known, latest dated 1867. Bold VF c/m; on Good C-N Indian Cent.

445. **"Hunt & Moore".** A clue to the identity of this issuer comes from TAMS maverick 5007, listing Hunt & Moore as 'proprietors'. Apparently these c/m were for a saloon in business during and shortly after the Civil War. Rulau contends the stamp was made by the Stranges of Bangor, ME, but enigmatically assigns the struck tokens to Burke, ID (1997:469) Bold VF c/m; on nice brown VG 1864 two-cent.

F. Hunt on Draped-Bust Half Dollar

446. **"F. Hunt".** Struck twice, one VF, other weak VG, in fields (see Brunk photo). On nice, clean AG-Good to Fine at edges, 1806 Draped Bust Half Dollar, with prominent die-break through date, stars. Only known example on half; one of 3 known. Rare.

Scarce St Louis I.B.B. C/M

448. **(MO: St Louis): 'I.B.B.' Isaac B. Burbbayge.** Burbbayge was first listed in the St. Louis business directory of 1839, and advertised a wide variety of goods, including maps of western rivers, and negro slaves. In the 1840 directory he was listed as a partner in Burbbayge & Keller, which manufactured tin and copper goods at 160 N Main St. "I B B/St. Louis/Mo" Partially weak Fine c/m; on dark AG 1834 Bust Dime.

Rulau values at $150, but worth much more, as bust coinage c/m are uncommon. An IBB on a Good 1807 two reales brought $880 in the Nov 1993 B&M auction.

449. **"I" "E".** Deep, bold XF c/m on rev; on AG 1805 Large Cent. Only known specimen.

450. **"J. G."** Large, bold XF c/m; on F/VF 1863 C-N Indian Cent. One of 3 known on Indian cents.

Brunk Plate, p. 261.

451. **"J.V.P./(Masonic square & compass).** VF c/m all on bust; on 1797/6 Mexico real, nice Good, top hole. There are only a few c/m with Masonic symbols.

452. **"Jones".** Bold XF c/m; on Good 1863 C-N Indian Cent. Only one known on Indian cent, 4 total. 4

Phila. Jones Exchange Hotel

453. **(PA) Philadelphia: Jones Exchange Hotel.** "Jones/Exchange/ Hotel/77 Dock St/Phila" Double struck on rev, "Jones" weak, otherwise VF/XF c/m; on AG 1794-Guatemala two reales, holed at top. Large letter variety (See Brunk plate, right). Rulau notes Guatemala mint merchant c/m are very scarce.
Rulau values common mint two reales at $225/VF, not priced in XF.

454. **"D.A. Jones".** This is apparently a gunsmith or tool-maker mark as the model year '1846' appears on 2 other examples. Bold VF, 'O' broken; on nice brown VG 1842 Large Cent. One of 4 known on Large Cents.
Brunk Plate, left. Ex-Kirtley, Oct 1984, lot 251.

455. **"K & V P".** VF c/m; on nice AG/G 1801 Large Cent. Only known specimen.

456. **". Keel".** First letter off, deep bold VF/XF c/m on rev; on Good 1859 CN Indian Cent.

457. **(CT: Hartford) "E. Kellogg".** Beginning in 1859 E.C. Kellog was a gunsmith, locksmith and bellhanger in Hartford, CT. This is probably one of his stamps. Curved c/m variety, bold VF/XF c/m; on nice VG/F 1846 Large Cent. One of 4 known on large cents; 6 total.
Brunk Plate: Stain is more noticeable in photo, than on coin!

458. **(MD: Baltimore) "C. Kidd".** Probably one of the stamps of Charles Kidd, who ran an edge tool factory in Baltimore on Pratt St 'At the Sign of the Axe', during the 1850's. See the Update for Kidd's advertisement. Large, bold XF c/m, but bottom of "DD" weak; on AG 1848 Large Cent. One of two known, both on large cents.

Important New Attribution for Dr. Kidder

459. **(MA: Boston) Dr. Moses Warren Kidder.** Dr. Kidder proved to be a very difficult individual to identify with certainty because his patent medicines were sold by someone else! The well-informed initial attribution was to Dr. James Kidder, a doctor and druggist whose patent medicines were sold by his second wife, Elizabeth Ann Goldsmith Kidder. She advertised Kidder's Dysentery Cordial and other medicines in the 1845 city directory (See next lot for a bottle). That seemed the correct attribution until Dr. Craig Blackstone recently discovered that the physician in question was actually Dr. Moses Warren Kidder, also of Boston. In the 1845 Boston directory, D. Taylor, Jr. & Company, advertised Dr. Kidder's Celebrated Family Pills for 'cure of fevers, liver complaints, costiveness, and all complaints where a purgative medicine is required.' Another of Taylor's advertisements in the May 1854 Boston Evening Transcript noted the pills were 'prepared only by D. Taylor, Jr. & Co.' Taylor's 1854 directory listing indicates his short lived association with Kidder: 'Taylor David jr. & co. (M.W. Kidder), medicines and fancy goods, 25 Hanover, house 31 Crescent place.' In 1855 Dr. Moses Kidder was selling patent medicines at 11 Central Street and living in Lowell. By 1858 Kidder had joined his father's practice and by the early 1870's was not only listed as a physician in Lowell, but also as an agent for the American Improved Gas Light Company. Furthermore: 'his services as chemical expert in law cases were in frequent demand'. "Use Dr.Kidder's./ Family Pills", in curved lines. Nice VF c/m; on choice brown Fine 1840 Large Cent. See article by Craig Blackstone TAMS 1997: 61-63, where this piece is plated.
Brunk Plate, FULL-PAGE Plate, p. 101. William Swoger, "Genealogical Numismatic Research", TAMS 1991, plate. Ex-Koppenhaver, June, 1978, lot 129. No price records since the c/m was correctly identified.

A U.S. Mint Issue! The Enigmatic "L" Counterstruck in U.S. Mint While Coin Was on the Die

Enlarged

The FAMOUS "L" - Struck by the U.S. Mint!

467. **The Enigmatic "L" on 1825/4 Overdate Quarter.** These countermarks have been fascinating numismatists since the Dec 1881 John Haseltine auction, which featured a number of coins apparently from the DuBois Collection. William DuBois, Chief Curator of the US Mint Collection, died in 1881, and coins in his collection were dispersed by dealers. This may explain why there are no records of the c/m prior to 1881. They were described by Frank Duffield in his 1919 Numismatist article, who noted the letters "E" and "L" on 1815 and 1825 quarters. They are commonly sought by bust quarter collectors, as well as countermark collectors. Duffield first suggested they are US Mint trial strikes. Like the 1848 CAL strikes on gold quarter eagles that announced the discovery of gold in California, these letters were stamped while the coin rested on the reverse anvil die. Karl Moulton observed both the letters "E" and "L" appear to be from Mint punches of the sort used to make the dies for the 1807 quarter dies. Moulton suggests that John Reich, Assistant Engraver of the Mint in 1815,himself stamped the letters into the coins as part of the test process he used in redesigning the Bust quarter, ca. 1815. Moulton further suggests following the death of the Chief Engraver in 1823 and the resignation of the Director in 1824, William Kneass was left doing most of the work. Kneass may then have asked his old friend John Reich to work on the current 1825 quarters. Whoever did the stamping, both years were stamped the same, with the coins resting on the dies when the stamping was done. As is apparent from this explanation, there is some difficulty in explaining why the stamping was done on coins 10 years apart. The auctioneer suggests the possibility that the 1815 dies were dusted off and used in 1825 to strike more coins. As these coins were obviously struck and counterstamped in the Mint, it would be only a modest stretch to suggest all were struck in 1825.

He first established his business across from the Magnolia Saloon in Sacramento, but quickly moved to 190 J. St, where he remained until his death. He occasionally traveled back East, marrying twice. He died in 1866, and his wife continued the business.
"J.L.Polhemus/(mortar & pestle)/Druggist/190 J. St. Cor 7th/Sacramento Cal." F/VF c/m, left side very weak; on slick AG 1854 Seated Quarter. One of the most popular US c/m, collected for over a century. One of his c/m coins was recently recovered from the wreck of the Central America, which sank in a gale while returning to the East Coast from the California gold fields.

Rulau Plate.

Phila. H. Rees Hard Times Tokens

539. **(PA: Philadelphia) "H. Rees".** Hard Times Token 415B. In the 1837 Philadelphia directory, H. Rees advertised his blacksmith shop on Arch St. Examples of ironware with his mark have been reported by Dave Bowers. Two varieties known, straight and curved. All examples in this sale are the curved variety. The latest known c/m is on an 1838 coin, which makes this a Hard Times Token. Rulau 1997: 140. F/VF c/m; on AG 1831 Large cent, pitted.

540. **(PA: Philadelphia) "H. Rees".** Hard Times Token 415B, as above, bold XF curved c/m, but "H" weak; on date-worn slick AG Matron head Large Cent.

541. **(PA: Philadelphia) "H. Rees" & "Heisser" Newly Listed HTT.** HTT 415M, previously unlisted Hard Times Token (see 415, Rulau 1997, p.140). "H. Rees" bold XF, second "Heisser" c/m straight line F/VF, just below "Rees"; on nice brown VG 1837 Large Cent. Only known specimen with both c/ms.
Rulau, 7/98 assigns new HTT #415M.

Unique New Hampshire C/M!

542. **NH Groton: A. Remick.** Another piece that should be easy to research. Check your early NH directories now, and see your name in genuine print in the Update. "A. Remick./No./Groton, N.H." Actually the "No." is halfway between the other 2 lines, to the right. Struck on BOTH SIDES, so we know it is a single punch. Obv weak to Fine, rev bold VF c/m; on AG 1853 arrows/rays Seated Quarter. Only known specimen, UNIQUE!
No recent auction records to gauge value on this unique piece!

543. **". Ridings".** Struck 3 times. "." is more like a separation mark, than a period. VF-XF c/m; on VG 1848 Large Cent. Only known specimen on cent, one of 2 known.

Calif. Rudolph Druggist

547. **(CA: Nevada City) "Rudolph".** J.F. Rudolph was a druggist, who bought the business of Dr. W.G. Alban at 21 Commercial St in Nevada City in 1855. In the 23 Nov 1855 "Nevada Journal", Rudolph announced he had worked for 20 years in Philadelphia, and is listed in directories from 1844 to 1855. He advertised in the 1856 Nevada City directory the exact same way he stamped his coins. In 1861 Rudolph was in partnership with Mr. Hunt selling drugs at 32 Main St. Researchers Bill Swoger and John Schreiner report that by 1885 he was listed as a druggist in Sacramento, California at 823 K St. This was about seven blocks from J.L. Polhemus (see lot 529). But since the latest date c/m coin is 1861, these were probably struck in Nevada City. Left side very weak, AG-F c/m, first letter missing; on AG 1853 arrows Seated Dime.
There are fewer Ruldoph examples known than his better known competitor Polhemus. This and the following specimens from the Brunk collection should allow collectors to acquire an example. Specify 'one-lot-only' on your bid sheet.

548. **(CA: Nevada City) "Rudolph".** As above, left side partially weak G-VF c/m; on Good 1856-O Seated Dime.

Unique Maine Sagadahock House

551. **(ME: Bath) "Sagadahock House".** Listed by some early researchers as 'Sagada Hock House', but we now know Sagadahock is an Indian name for the area at the mouth of the Kennebec River. This nineteenth century establishment was a hotel in Bath. F/VF c/m, a few letters weak; on AG/G 1876 Seated Half Dollar. Only known specimen. Rare. See Rulau 1997; 509 for extensive comments.

Pittsburgh Reattributed Hard Times Token!

561. **(PA: Pittsburgh) William Scott - New HTT 532.** Reattributed Hard Times Token! Rulau believed this to be the hallmark of a Louisville silversmith, William D. Scott. However recent research by Brunk matches this c/m with an illustration in Pollack's 'Makers of American Wooden Planes'. William Scott, one of the earliest plane makers in Pittsburgh, was mentioned in a 1812 property purchase. Scott first worked in 'Pittsburg City', then moved across the Allegheny to 'Allegheny Town', now Pittsburgh's North Side, and was listed in business directories from 1813 to 1839. An Early American and Hard Times Token. Bold VF/XF BAR-PUNCH "W. Scott", toothed border; on AG-G 1820 Lima two reales, some light scr obv. One of only 2 known on two reales, one of 5 total. Rare early Pittsburgh countermark. See Rulau 1997, p. 194.
Rulau 7/98 assigns new number 532. Color Cover Photo. No auction records since the c/m has been correctly attributed.

562. **"Selwyn House".** Struck 4 times obv, 7 times rev, plus "1" several times, some weaker to VF c/m; on VG 1867 Indian Cent. Only known specimen.
This should be easy to locate! Unlisted in Rulau.

Maine Dr. Shattuck Medical C/M

563. **ME Waterford Dr. William P. Shattuck.** Dr. Shattuck was born in 1818, and visited ME in 1854 on a lecture tour. He purchased the 'water cure establishment' and renamed it the Maine Hygenic Institute, operating it until 1858, when he went on a 3 year lecture tour. The latest known c/m is 1858, prior to his tour. He returned in 1861 and kept it in operation until his death in 1887. "Shattuck/Water/Cure/Waterford/Me." F/VF c/m, a few letters weak; on VG/F 1831 Large Cent. A nice, early medical c/m.

Early American Silversmith F Sibley

564. **(MA or CT?) "F. Sibley".** Early American Token. F/VF c/m; on nice VG 1818 Bust Quarter. Three known, others on 1826 and 1827 large cents. A number of early US silversmiths with this family name worked in MA and CT. Rare.
Brunk Plate. Appears to be an important Early American Token. The coin catalogs for $100, this c/m worth $300-500?

565 569 571 572 575 576 577

565. **"Slack Sellers/& Grayson".** An auction of antique tools listed Slack and Sellers as tool makers (no location given). Apparently this is a successor firm. Another piece ripe for research! Struck twice, VF-XF c/m; on brown AG 1819 Large Cent. Only known specimen. UNIQUE!

Brunk Plate, p. 295; Rulau plate. No recent auction records for this unique specimen.

Previously UNLISTED Hard Times Token

566. **"Smith &/Gemrig" Newly Listed HTT 536.** From the style this is probably a watch maker or silversmith partnership, but the mark is not listed in any of the standard references. Gemrig is a very odd name, with none listed currently in my 80 million phone book list. It should be possible to track this down. VF-XF c/m; on AG 1838 Seated Half Dime. Only known piece on half dime; one of 3 total.

Rulau 7/98 assigns new number 536. Brunk Plate. Ex-Koppenhaver, June 1979, lot 730. Unlisted in Rulau, but he does list a Smith & Grant as a Louisville silversmith, at $400-600.

567. **"I.D. Smith".** Struck twice obv. F, VF, and once rev. bold XF; on AG Draped Bust Large Cent, AG, date worn. One of 4 known.

Brunk Plate.

568. **"Alex. Sowl".** An unusual name, possibly you can attribute this one with some research. VF c/m, on rev; on worn AG 1876 Seated Quarter. Wrongly listed as on 1806 in Brunk. Only known specimen.

569. **"W. Spitzer".** "S" and "Z" are retrograde, as if this is a trademark. Bold XF c/m; on Good+ 1876 Seated Half Dollar. Only known specimen on half, one of two known. Rare. This should be identifiable.

Brunk Plate. Rulau values at $60/VF; the other example sold in the VanOrmer B&M 1985 sale for $80 on a four reales.

RARE Traveling Minstrel Show!

570. **Sprague & Blodgett Georgia Minstrels.** A traveling minstrel show. A very popular c/m. "Sprague & Blodgett's/Admit/One/Georgia Minstrels" & the numbers "12345678" punched in right field. Nice F/VF c/m; on AG 1862 Seated Half Dollar.

Color Cover Photo. An example on a AG Half dollar brought $220 in the Nov 1986 B&M auction.

Springfield Armory!

571. **(MA-Springfield): Springfield Armory.** In 1792 the US Congress authorized construction of two national armories. The one at Springfield began operations in 1795. This "Springfield" c/m is the same curved style as the stamp on a 1795 model Springfield Flintlock Musket (illustrated in Fladerman, p421). On 1800/1790 Large Cent, struck 3 times (one overlaps) on obv, F/VF c/m on AG-G cent. One of three known on cents with this style mark. Rare.

Rulau values at $100/VF, probably low for this US government military c/m. Another c/m reading "US Watervliet", a different arsenal, same idea, brought $286 in the 1993 Nov B&M sale.

New York Liquor Dealer

572. **(NY: New York City) "Stelling/31/Old Slip."** Stelling was a liquor dealer at this address. VF c/m; on AG 1854 arrows Seated Quarter. One of 3 known. Rare.

Unlisted Hard Times Token - N.Y.C.

573. **(NY: New York City) "Sterling, Co" Unlisted Hard Times.** VF c/m; on VG/F Hard Times Token, holed. One of 2 known, the other is a 1817 large cent also c/m 'Israel L. Green, N.York July 9, 1827'. A company of this name is known to have existed later in Derby, CT. Given the known information, apparently an unlisted HTT. RARE.

Brunk Plate. Unlisted in Rulau, worth $200 up.

574. **"F.E. Stickel".** Curved XF c/m; on Fine 1850 Large Cent. Only 2 known of this variety, 3 others with a horseshoe c/m.

Previously UNLISTED Hard Times Token!

575. **(CT: Burlington & NY: Brookfield) "E. Stillman" - Newly listed HTT 540.** Previously unlisted Hard Times, now 540. Ethan Stillman was born in Westerly, RI in 1768, worked as a youth in the NY Iron Works, and later was a shoemaker. In 1798 he moved to CT, and with his brother Amos received a government contract for 500 muskets. In 1808 he got another contract for 2200 more muskets, after which he moved to NY. As some c/m coins are known dated after his move, at least those must have been issued in NY. This exact stamp appears on the lock of his muskets. Struck BOTH SIDES, VF-XF c/m; on VG 1835 Large Cent. One of 4 known on cents; 5 total. See Rulau 1997, p.463.

Famous STONE & BALL - Syracuse NY

580. **(NY: Syracuse) "Stone & Ball".** Seymour Stone and Calvin Ball sold silverware and jewelry. They also repaired clocks and watches, and held a contract with the Syracuse school board to keep its clocks in good working order. A reporter from the Syracuse Herald interviewed Ball during the late 1890's, and published an article on their countermarked coins. See the Update for the text. Probably issued ca. 1855, as that is the latest known date coin. Of the three varieties, only 15-20% are seen with the much scarcer hallmark-style bar-punch. BAR-PUNCH F/VF c/m, last letters weak; on VG 1848 Large Cent, rev rim dings.

Previously UNLISTED Hard Times/E.A.T.

584. **(MA?) "F. Storrs" Unlisted Hard Times Token - EAT.** Previously unlisted EAT or HTT? (see Rulau 1997, p 28). This bar-punch c/m is obviously a hallmark. While F. Storrs is not listed in any silversmith directory consulted, a close comparison of this mark with the stamps of Nathan Storrs indicates they are of the same style. Not only are most of the individual letters similar, but both stamps are cut so they are not quite rectangular, with a slight bulge in the middle. Thus probably F. Storrs was an apprentice to Nathan, or otherwise related. Nathan Storrs and Benjamin Cook worked in Northampton and Amherst, MA, ca. 1827-33. They are known to have marked coins with 'Storrs & Cook'. BAR-PUNCH VF c/m; on AG/G 1819 Large Cent. Very Rare, only known specimen of this EARLY c/m. Rulau 1997; 28.
Brunk Plate, p. 300. Rulau values the Storrs & Cook at $200, but this unique piece probably worth more. Rulau 7/98 assigns new EAT number MA-100.

603. **"U" in Horseshoe.** See Brunk photo. Probably a late 19th century trademark. XF c/m on rev; on VG 1889 Indian Cent.

604. **"L. Vansands".** Another unusual name that should be identifiable. Struck twice on fields, bold VF-XF, on Fine 1849-O Seated Half Dollar. Only two specimens known, the other on a 1854 half.

Brunk Plate, p. 306. Rulau plate 1997: 704. A neat c/m, and since unique, no recent auction records.

Phila. WWL on Half Cent

609. **(PA: Philadelphia?) "W W L".** Rulau suggests these were issued by William W. Long, who struck elaborate merchant tokens in the 1850's, for his gaming establishment. This same WWL stamp was used to make brass gaming tokens. These c/m coins may have served as gaming tokens in Long's establishment. This is the variety with the incuse 'comma', which appears at various places on his c/m'd coins, and possibly validates these gaming tokens for continued use. Bold XF c/m; on nice brown Fine 1851 Large Cent.

Color Cover Photo. Rulau values at $40/VF.

Important Early Silversmith Mark

610. **"Wagner".** Important Early American c/m, found only on silver coins before 1820. Appears to be a silversmith hallmark, but the issuer has not been identified. VF c/m; on Good 1783-MI Lima two reales, some pitting. One of only 3 known on two reales. Rulau 1997: 69-70.

Cincinnati Walton's Bitters

612. **(OH: Cincinnati) Walton's Bitters.** This patent medicine was manufactured by Samuel W. Walton, of Cincinnati. "We Recommend/Waltons/Bitters" VF c/m, several scratches through "Bitters", all over large c/m "M"; on AG 1871 Seated Half Dollar.

Rulau values at $250/VF.

New York A. Ward

613. **NY (New York City) "A. Ward/N-Y."** The only NYC merchant named Ward who would have had a c/m stamp ca. 1850 was Andrew Ward. He was listed in the 1850-3 directories as a hardware merchant with stores at two locations: 335 Sixth Ave, and Eighth Ave & West 50th St. Bold VF c/m; on AG 1853 arrows/rays Seated Quarter. One of 3 known.

Brunk Plate, left. Color Cover Photo. Unlisted in Rulau, worth $200-400.

614. **"E. Weller".** Bold VF/XF c/m; on VG Large Cent, large hole over date, dark at top. One of 2 known on cents, 3 total, the latest dated 1853.

Brunk Plate.

617. **(IL: Chicago) "Chas. Wendell/Jeweler".** VF c/m, but second line weak; on AG 1840 Seated Dime, slick rev.

Minn or Wis. H. Wettstein

618. **(MN/WI?): "H. Wettstein".** A prolific counterstamper of coins, about whom little is known with any certainty. Although many of his c/m are found on US coins, some are also on Canadian coins, an unusual practice for US merchants. While a number of Ontario merchants did c/m US silver coins, Brunk has been unable to trace Wettstein in any Canadian directory. With the advent of computerized telephone directories, it is clear almost every Wettstein currently lives in MN or WI. H. Wettstein probably lived close to the Canadian border, so close that Canadian coins were commonly accepted as change during the 1870s. OBV & REV, obv VF c/m, rev weak; on Good 1863 CN Indian Cent.

619. **(MN/WI?): "H. Wettstein".** As above, on OBV & REV, VG-F obv, rev weak; on US AG 1876 Seated Dime.

620. **(MN/WI?): "H. Wettstein".** As above, OBV & REV, F-VF c/m; on Good US 1876 Seated Quarter.

623. **"A.S. Weyer".** Bold XF c/m, slightly double struck; on worn AG late date Large Cent. Probably issued ca. 1856, as this is the latest dated coin.

Early American Boston Whitcom

624. **(MA: Boston?) "?. Whitcom".** Important Early American c/m. Similar to some early pewterer hallmarks. First letter partially off left side (possibly an "H"?), otherwise a nice VF c/m. "M" weak, and at the end of the coin; on nice VG 1831 Bust Half Dollar. Rulau lists 'Whitcom' and 'Whitcomb' c/ms, and this may be 'Whitcomb'. A good possible issuer is the Whitcomb family of Boston. Carl Jacobs (Guide to American Pewter) lists A.B. Whitcomb working in Boston in the 1820's and 1830's. The time period is correct, and if a pewterer hallmark, that explains why the stamps are bigger than a silversmith hallmark. Since pewter is so soft, a larger impression can be gained from the same blow, but the result is a weak strike when struck with similar force on a silver coin. Rare, one of 2 known, other on 1807 half.

Color Cover Photo. Rulau values a script c/m from the same time period and perhaps the same issuer at $400. No recent auction prices for this Early American c/m.

625. **"W.H. White/---.---".** First line curved, F/VF c/m; on worn date shield nickel. One of 2 known on nickels, 3 total. An apparently related c/m reads 'W.H. White & Co./Cast Steel'.

626. **"D. Wigg/(Horseshoe)".** Very bold XF c/m; on Good 1837 Large Cent. One of only 2 known with this arrangement on large cents, 3 total.

Brunk Plate. Color Cover Photo.

Unlisted Hard Times Wildes - Half Cent

627. **(NY: New York City/Philadelphia) Thomas Wildes.** Hard Times Token? The crowned X c/m was first reported by US Navy Commodore W.C. Eaton in the 1922 Numismatist. Its origins were hotly debated until Brunk discovered an example of the c/m on one of Wildes' works. Wildes began work as a pewterer in Philadelphia in 1829, moved to NY in 1833 and worked there until 1840. The identical crowned "X" appears on a lamp with Wilde's stamp (See Update) and was a mark used on high quality pewter wear. "(Crown)/X" Bold VF/XF c/m; on F/VF 1833 Half Cent, "E" scratched on rev. See Rulau 1997: p.291 USMT Pa 723A.

An example with "Philad" on a 1835 half cent brought $190 in the Sept 1992 B&M auction. Rulau, 7/98: "USMT Pa 723A. Could be HT, but not convinced as yet."

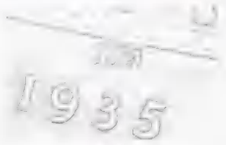
Two Important Canadian Countermarks!

664



665

RARE Nicholas Ohman!

664. **St John, Newfoundland: Nicholas Ohman.** Ohman was a jeweler, listed in the 1882 directory. This "N O" BAR PUNCH is his hallmark. Like the highly sought 'J.O.P.' hallmark c/m of Joseph Patenaude of British Columbia, Ohman's "N O" c/m were probably used for local advertising. VF c/m; on worn date AG Newfoundland half dollar. RARE, one of only six known.

Important Joseph O. Patenaude!

665. **B-C: Nelson: Joseph Oliva Patenaude.** In 1871 Joseph O. Patenaude was born in Iberville, Quebec, and moved to Nelson in 1897. There he owned a jewelry store on Baker Street which employed 13 people. In local newspaper accounts he was remembered not only for his artistic creations, but for his good acts as well. Patenaude was a devout Catholic and a contributor to many charities. In 1947 Pope Pius XII personally honored him in recognition of his altruism. Toward the end of WWI Patenaude invested in an inexpensive way of refining silver ore. A patent infringement suit followed, and after a long delay made its way to Canada's highest court. Patenaude and his fellow investors lost the judgment, and he was forced to sell most of his operations in 1930, remaining in business only as an optician. After these difficulties he became interested in improving the condition of Canadian mining through the free coinage of silver (Gingras 1959, 1965, 1982). In 1935 Patenaude obtained a thousand Canadian silver dollars and stamped them in the center of the voyager's canoe with his 'JOP' hallmark, giving them out in change at his optometry business. The usual explanation for these coins is that by countermarking them he attempted to show the extensive circulation of silver dollars, and by so doing encourage the government to coin more of them. But this may have just been an inexpensive form of local advertising. Patenaude continued counterstamping dollars until 1949, but seems to have stopped when he sold his business (Gingras 1982). Two varieties exist, this "J.O.P." bar-punch in oval with relief letters, and 'JOP' incuse. This specimen is struck just below the canoe, slightly double struck, and a bit angled, on a 1935 Canadian silver dollar. Only 25 total recorded specimens, but not listed by variety. Highly sought by Canadian collectors. Another Canadian hallmark with a similar advertising purpose is by Nicholas Ohman (see lot 664).

Emperor Napoleon III gave the order to hoist a white flag at Sedan, formally surrendered to the Prussians the next day, and was sent into exile in Germany. The battle was commemorated by many countermarks, engraved coins and satirical tokens that copied French 10 centimes. All of the following pieces are the variety without an accent mark over "E". Unique Jefferson Indian Peace Medal

Shown at 100%

Important Jefferson Indian Peace Medal

2222. **Possibly UNIQUE Jefferson Indian Peace Medal.** Rare and previously unknown Thomas Jefferson Indian Peace medal. Similar to Julian IP-3, but a galvano SHELL, not a solid medal. Undoubtedly made from an original 76mm dies copper impression. Nicely toned silver-plated copper, with only a few traces of copper. All the different sizes of the original early Jefferson Peace medals were also struck as shells, joined together. This middle size medal was struck in copper as a solid piece, for collectors beginning in 1861. This unusual specimen is an electro-type galvano shell, with the two sides joined together, as were the original pieces. There is a very fine die crack on the reverse, though the bowl of the peace pipe to the thumb. The medal has some very light wear, and does have some depressed area, as is quite normal on a shell. Choice About Uncirculated. Wonderfully toned silver-gray, 73.5mm, a couple of high points with some minor rub. A small reverse section at lower right on the rim shows copper, as do some minor high points which are the only hints it is not a solid silver strike. Unholed. Unlisted and previously unknown to researchers. All Jefferson Indian Peace Medals are rare to extremely rare, with early silver pieces bringing over $15,000. For the advanced collector, or for the person seeking any Jefferson Indian Peace Medal, this possibly unique piece should be of interest. $2000.00–2500.00+

Important Colorado Mine Veteran Badge

2320. **CO Colorado Mine Disturbance Veteran Badge.** In 1901 the miners of Telluride, Colo, walked out, calling for a set daily wage, and for union representation. Mine owners refused and hired non-union men to reopen the mines. Some 250 armed strikers confronted the scab miners and after killing three,forced the rest to leave town. The owners were forced to agree to a $3 minimum daily wage. This fair settlement did not bring peace to the mines, for in 1903 there was a general strike of the mill and smelter workers and miners. In Colorado City the Western Federation of Miners called a strike demanding wage increases and the eight-hour day. A strike of miners in Cripple Creek involved 3500 miners from 50 mines. The mine owners brought in outside miners and appealed for martial law. On 4 Sept.1903 Governor Peabody ordered Brig. Gen. Sherman Bell to proceed to Cripple Creek with the militia to maintain peace and order. On 6 June 1904 (10 months later) an explosion at the Findley Mine railroad station killed 13 non-union miners. The mine owners were quick to blame the union, precipitating lynching, censorship and destruction of the local newspaper. Mobs stormed the union hall and the militia arrested union men and sympathizers. By the 10th over 200 men were forcibly deported from the Cripple Creek District. Soon the mines started up again with non-union miners and the militia left 26 July. A three part badge, with top pin: "Colorado City/Cripple Creek/Telluride-Trinidad/1903-1904", with red/white/blue ribbon in excellent condition; lower medal with "James H. Black History & Americana

Slave Tags - Slave Hire Badges

With all of the current interest in slavery in America, there is really only one artifact which provides a tangible association with urban slavery, the "slave tag", or "slave hire badge". Slave tags are the only artifacts which can be positively guaranteed to have been worn and used by slaves! Too often other Slavery artifacts such as shackles, clothing or other items are either non-contemporary, or were common to both white and black users.

Slavery is an unfortunate fact of American History, but it is a part of our history. Most Americans have some ideas of how slavery worked, but these ideas are mostly limited to the ownership and sale of slaves, with their work in the fields of the South.

The truth is a bit larger. While some 95% of all slaves spent their lives toiling in the cotton fields or at other agriculture, others worked in cities at various tasks. Slaves represented a pool of skilled and unskilled laborers. Some had learned trades such as fishing, carpentry, repairs, etc. Others did laundry, household tasks, sewing and other servant labor. Given the changing supply and demand for labor, owners soon found it advantageous, not to mention profitable, to hire out slaves to others for the day, a week, or longer. In rural areas it was common to hire slaves for several months to a year, through a formal written contract. As an example, the auctioneer has a printed contract, filled in with names and date for the rental of a slave named Bob for a year, in the sum of $130, in 1855, payable quarterly.

Several southern cities allowed slave owners to hire out their slaves. Obviously the more talented the slave, the more money he could make for his master. Not as obvious is the fact that the slave usually received part of the income. Also, slaves were often permitted to hire themselves out to others, returning part of the income to their owners. This allowed the slaves to dispose of their own time, increase their material existence, and to increase the possibility of self-purchase. The issuance of slave badges to patrol slave hiring is unique to Charleston and Charleston Neck, a suburb. Tags from the Neck remain excessively rare, with all known specimens dated 1849-50. While written contracts were in existence in cities, the slave tag permitted short-term employment of slaves without written contracts or other documentation. Moreover, hired slaves, by wearing a badge, could be easily distinguished from runaways, free blacks or loitering slaves.

Cities instituted badge laws to provide a tax income, and to regulate the slave hiring. White artisans complained in 1742 about blacks undercutting their prices! This was an on-going problem, especially in the fishing industry and the selling of fresh produce. As early as 1712, legislative acts were passed to limit self-hire, and to require written contracts for hiring. Charleston, Savannah, New Orleans, Mobile and Norfolk all had badge laws, but genuine tags are currently only known to exist from Charleston.

While rural blacks retained much of their African culture, due to the remoteness and lack of interaction with others, the situation was different in the cities. Slaves often lived apart from their owners, and had a great deal of autonomy. Slaves also had contact with free slaves, who flourished in the cities, white non-slaveholders, and shop keepers who catered to black clientele. Many ministers established churches for black people. This interaction, with the greater access to education, tended to undermine the masters' control over slaves. Consequently, slave control became the responsibility of local governments. As early as 1712 Charleston passed acts to regulate slave hiring. Over the years several different acts were passed, with some degrees of success. While early legislation specified slaves were to wear paper tickets or badges, none have survived dated prior to 1800. After several versions, repealed acts, and new badge ordinaces, badges were abolished by 1790. No genuine pre-1800 dated Tags are known to exist.

Hire badges were re-established in 1800 by a rather stiff ordinance in Charleston, partly to appease white merchants, but more importantly to curb the increasing autonomy of the urban slave. An ordinance in 1789 barred slaves and free blacks from selling certain "goods, wares and merchandise" without a license. Similarly in 1796 it became unlawful for slaves to carry on a trade for themselves or to teach a trade to other slaves. Owners of slave craftsmen had to keep one white apprentice for every four slaves employed. Slave vendors were gaining control of part of Charleston's internal economy! In 1848, for the first time slaves could legally work for other slaves or free blacks.

The 1800 ordinance issued a fee schedule by occupation, aiming to reduce the number of slaves involved in slave hire. It prohibited owners who were not city residents from hiring out their slaves, and limited the number to six slave hires per resident. The annual fee was $1 for servants and porters, $2 for porters, increasing in 1843 to $2 for servants up to $7 for other skills. The slave population in Charleston was 14,673 in 1840, with $14,000 worth of badges sold in 1848. If all were servants, some 7000 slaves had badges, at the most. Almost 50% of the Charleston slaves had badges, around 1840.

The earliest known dated tag is 1800, a "Mechanic". It is generally accepted that the oval "Free" tags are earlier, but they remain excessively rare, with only two or three known. The last known dated tag is 1864. Early tags were usually countermarked by the issuing silversmith, such as the Lafar 1816 Servant tag offered here. Each tag is marked with the city, the date, a serial number and the occupation, such as "Servant" or "Porter", the two most common. The next most common occupation was "Mechanic", with all others substantially rarer.

Early Slave Tags were marked by silversmiths with their punch. In 1800 Ralph Atmar Jr. marked tags "ATMAR". From 1801 to about 1810, tags were marked "C PRINCE". From 1811 to 1828 John J. LaFar marked them with his punch "LAFAR". LaFar lived 1781 to 1849, and was a well-known Charleston silversmith. Later tags were not marked.

A study in 1984 found only 52 slave tags in museum collections across the country. While a number of tags have been excavated in the past decade, they remain quite rare, especially considering the original numbers made. With the high cost of metal in the period 1800-1860, obviously most of these were recycled. Slave tags remain the only slave item that can be positively guaranteed to have been worn by a slave. With the added guarantee of an exact date and and occupation, it is no wonder they remain popular with medal collectors and black history collectors alike.

A word on fakes and fantasy Slave Tags is in order. There are NO known genuine Slave Tags from anywhere except Charleston and Charleston Neck. All such tags seen to date are fantasy pieces. All fully hand-engraved Tags are fakes or fantasies. There are some fake Tags that are highly deceptive, being struck from dies in close imitation to these shown here. Be sure to get a written bill of sale and guarantee of authenticity when buying any Slave Tag. All tags sold in this sale come with a full lifetime guarantee, and are unconditionally guaranteed to be genuine, original pieces. The American Numismatic Association Authentication Bureau does issue photographic certificates for authentic items. The ANA is a federally chartered non-profit organization for coin, token and medal collectors. Please write if you would like an application form to send in your metallic items.

This auction offers five genuine slave tags, a rare opportunity to acquire one of these interesting artifacts of American History. If you would like just one specimen, bid on all five in the order you prefer, and mark your bid sheet "one only". Don't forget that your bids will also be reduced, so feel free to bid your maximum amount. Information in this introduction to Slave Tags is mostly from "The Slave Tag: An Artifact of Urban Slavery" by Theresa A. Singleton. Copies of the booklet, with much additional information on Slave Tags with a review of current fake and fantasy Tags, are $25 postpaid.

1816 Servant Slave Tag with LAFAR Silversmith Mark

Important Early 1816 Servant Slave Tag

3105. **Square 1816 Servant Slave Tag by Lafar.** A nice example of an early style Tag on a square planchet, with "Lafar" silversmith backstamp. Square Tag, with top hole centered on top edge, four line bar-punch legend: "* Charleston *", with initial "*" missing due to weak strike. Some of the "Charleston" letter tops are weak, but overall quite legible. "1816" below, third line "Servant", last: "No 284", with "No" in script and number incuse. Backstamp "Lafar", centered under hole, last letter a bit weak. Each of the four edges have been clipped as made, to reduce the sharp edge digging into the wearer. The Tag has obviously been excavated and has a pleasant light green patina, and some minor unevenness. The green patina is somewhat mottled, but is overall quite satisfactory. There are some minor rust-colored stains on the reverse. Overall bowed out slightly, convex, as issued, and should not be flattened! The old style lettering, especially noticeable on "1816" and "No" is desirable. A visually striking Tag, and quite readable at a distance. Overall a nice, early Slave Tag. A scarce shape, and an early 1816 Tag. About Very Fine or better, and as nice as they come for an early, excavated Tag. . . . . $4000.00–5000.00+

On a 44mm square/diamond thin copper planchet, holed for wearing on top, edges clipped, slightly bowed/convex. Planchet bent and expertly straightened, with fold-marks showing along left side. A small bit is missing from the right side, just above the serial number. Small crack under the first two digits of the serial number. Excavated, darkish brown. About Very Good to Fine. A scarce occupation, and a reasonable example of a Slave Tag. . . . . $5500.00–6000.00+
